- All proficiency tests are organized according to the requirements of EN ISO/IEC 17043.
- Samples will be sent on specific dates as in the table above. The results will be submitted electronically.
- ISO 5725-2 and ISO 13528 will be used as the basis for the statistical analysis while the 'z score' will be used as assessment criterion for participant performance.
- At the end of the program a final report in aggregated and anonymised form and a certificate of participation will be granted.
- For applications please send your inquiry to [lab@tuv.at](mailto:lab@tuv.at) until 10 days before the results deadline.
