Product description	Electric grinder (20 cm high). The lower part of the product is made of chrome-plated plastic and the grinding container is made of stainless steel. The machine is switched on with a non-lockable pushbutton.
Risk type	Cuts Electric shock
Risk description	The appliance can be used with the lid open, allowing direct contact with the grinding blade while it is in motion. This could cause serious cuts to the user. In addition, the product is fitted with a two-pin flat Europlug without earthing which does not provide adequate protection against electric shock. The stainless steel grinding container may become live, the user could touch it and receive an electric shock.
Legal provisions (at EU level) and European standards against which the product was tested and did not comply	The product does not comply with the requirements of the Low Voltage Directive nor with the European standards EN 60335-1 and 60335-2.
